WHAT I BUILD

ERP systems · Point of sale · Marketplaces · AI customer support · Dashboards · Workflow automation · Data migration

TECH

Next.js · React · TypeScript · Node.js · Python · PostgreSQL · Supabase · Prisma · Drizzle · Tailwind · Claude / OpenAI APIs · WhatsApp API · n8n · Vercel · Linux VPS · Docker

EDUCATION

FAST NUCES
BS Computer Science · in progress

I build the software businesses actually run on: **ERPs, point-of-sale systems, marketplaces and AI customer support.** I handle the whole job, from learning how the business works to moving the old data across and keeping it running after launch.

200+	4	243+
screens in one ERP	countries of clients	posts automated, zero by hand

EXPERIENCE

2025 – NOW

Cybrix

Automation Engineer & Backend Developer

- Backend APIs and internal tools for agency and startup clients
- Workflow automation, system integrations and scheduled pipelines

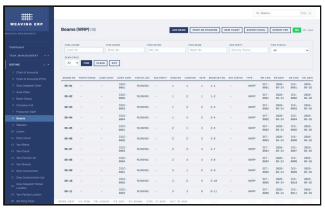

2023 – NOW

Freelance Software Engineer

Clients in Pakistan, the UK, Malaysia and Australia

- Replaced a weaving mill's legacy desktop system with a web ERP and migrated all of its data
- POS, ledger, gym and marketplace systems for small and mid-size businesses
- Daiki Media internship: three production websites for clients in Malaysia

SELECTED PROJECTS

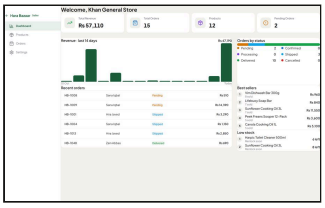

Weaving Mill ERP

CLIENT · ERP

Manufacturing ERP for a weaving mill in Faisalabad · 200+ screens

- Contracts, looms, beams with QR stickers, daily production and stock
- Sales and purchases post to the accounts automatically; 90+ reports

↗ erp-weaving.vercel.app

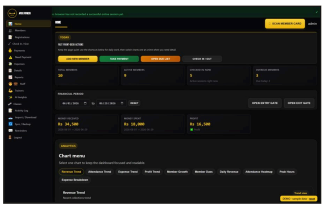

Hara Bazaar

MARKETPLACE

Multi-vendor grocery marketplace · customer, shop, rider and admin apps

- Shops manage orders, riders accept deliveries, admin runs the marketplace
- Revenue charts, best sellers and low-stock alerts on every dashboard

↗ hara-bazar.vercel.app

Apex Fitness suite

GYM SOFTWARE

Front desk, trainer portal, AI coach app and an operator panel

- Members, payments, attendance and reports; four AI agents coach members
- Operator panel renews, suspends and licenses every gym install

↗ gym-demo-drab.vercel.app

CLIENT WEBSITES

Step Hope
Trading education · stephope.com

Dr. Uzair Janjua
Cosmetic dentist · West Midlands, UK

Nexus Clinic
Aesthetic clinic · Kuala Lumpur

Cybrix
Social and content studio · UK

Launch Laundry
Laundry equipment · Malaysia

AD Design
Architecture · NSW, Australia

Holiday Idea
Holiday packages · Malaysia

Furnishing Solutions
Vinyl flooring · Malaysia

HOW I WORK

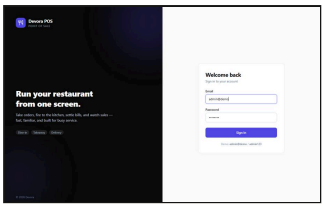

Learn the business first
Build around how the team already works

Ship a live demo early
Something real to click within days

Bring the old data
Nobody types anything in twice

Stay after launch
Fixes and changes as the business grows

MORE PROJECTS

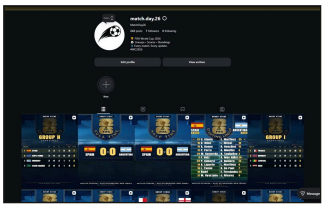

Devora POS

CLIENT · POS

Restaurant point of sale, live for clients

- Orders, kitchen tickets, tables and bill settlement
- A burger-chain version keeps selling even when the internet is down

↗ devora.pos.goxx.app

MatchDay26

AUTOMATION

Automated 2026 World Cup media pipeline

- Lineups, half-time, full-time and standings for every match
- Posted to Facebook, Instagram, YouTube and TikTok. 243+ posts, none by hand

↗ instagram.com/match.day.26

AI Customer Support Desk

CLIENT · AI

UK mobile and SIM retailer

- WhatsApp and website chat answered by AI from the retailer's plan catalogue
- Shared inbox with human takeover, leads, orders and email campaigns

PharmaSystem

SAAS

Multi-tenant pharmacy platform · 68 screens

- POS, inventory, P&L, balance sheet, ledgers and FBR tax compliance
- Super-admin for tenants, subscriptions and feature flags

Adil Fuel Supply

CLIENT · LEDGER

Daily ledger for a fuel supplier, in English and Urdu

- Deliveries, vehicle logs and customer balances that roll forward each day

↗ demo.fuel.goxx.app

Plinth

AI PRODUCT

Describe a building in plain English, get a 3D model on a real plot

- Zoning checks and a cost estimate in PKR, with Marla and Kanal presets

ALSO BUILT

Clothing store POS
Billing and stock for a fabric retailer

Installment manager
Tracks instalments, sends WhatsApp reminders

eBay sourcing scanner
Finds products worth reselling, builds listings

WhatsApp sales bot
Three-step lead follow-up that stops on reply

Auto blog publisher
Posts articles to WordPress with images and SEO

Multi-campus messaging
TCP and UDP system, university project
